The backyard is beautifully landscaped with LOW-MAINTENANCE TURF, perfect for enjoying summer evenings without the hassle. The exterior features durable Hardie board siding and sleek, modern design touches that set this home apart. Step inside, and get ready to be impressed. We’re not talking your standard 8-foot or even 9-foot ceilings—this home boasts 10-FOOT CEILINGS on the main floor, paired with 8-foot doors for an extra touch of luxury. The main floor also includes a moody office with built-in shelving, located next to a stylish half bath featuring a mirror that extends to the ceiling. The living room is a showstopper. The back wall is glass, with double patio sliding doors opening to a sprawling composite deck that offers uninterrupted views of greenspace, walking paths, and a serene pond. With an east-facing backyard, you’ll enjoy gorgeous morning sunlight as you sip your coffee or have breakfast. And the kitchen? It’s an entertainer’s dream, featuring stainless steel appliances, a built-in oven, a gas cooktop, quartz countertops, and a walk-in pantry. A FLOOR-TO-CEILING fireplace with an electric insert completes this floor, adding warmth and elegance. Upstairs, the thoughtful design continues with 9-foot ceilings. At the top of the stairs, there’s a full bathroom with a taller vanity, quartz countertops, and subway tile extending to the ceiling. The primary bedroom is situated at the back of the house, offering incredible east-facing views. The ensuite is luxurious, with a double-sink vanity, subway tile galore, a sit-in tub, a huge glass shower, a heated towel rack, and a walk-in closet with wraparound shelving. Down the hall, you’ll find two kids’ rooms, each with a custom feature

wall, and a bonus room perfect for movie nights or playtime. The layout is incredible—the primary bedroom is tucked at the back for privacy, while the bonus room is at the front, so you might even get to sleep in on weekends while the kids play! Don't forget about the walk-out basement, complete with 9-foot ceilings. Cozy carpet, a full wet bar, a custom entertainment unit with floating shelves, and large windows flooding the space with natural light make this level ideal for relaxing or hosting guests. A door leads out to your low-maintenance backyard and stone patio, giving you even more options to enjoy the outdoors. The WALK-OUT basement also includes a spacious bedroom, a full bathroom, and an additional bedroom—ideal for guests, older kids, or a home gym. The mechanical room is packed with upgrades, including a water filtration system, water softener, HRV system, and on-demand hot water.
